

# GK 5000 SERIES GREENHOUSE SYSTEM

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

## Height Needed for Boom Spraying and Efficient Air Movement

GK Machine's commercial greenhouse system is efficient and affordable. GK's high quality **5000 Series Greenhouse System** offers the height needed for air movement, boom spraying, power fans and heaters. The 5000 Series Greenhouse is designed for efficient air movement and ventilation to create the perfect conditions for growing.

All bends are made hydraulically with a bending system that ensures uniformity throughout the formed components. All bows, posts, purlins, and wind braces are pre-punched, and indexed for fast and easy assembly.

The 5000 Series Greenhouse is available in your choice of our standard clamp system or purlin strap system. A complete instruction manual, parts checklist and all hardware are included with the package.

## Standard House:

- 20', 24', 28' or 30' wide designs
- 4', 5', or 6' spacing
- Standard 5' sidewall height
- 3 purlin run
- 2 corner wind brace kits (48' or under)
- 4 corner wind brace kits (50' or longer)
- Made from domestic galvanized steel

## Options:

- Available with standard clamp or purlin strap system
- Large selection of doors
- Selection of end wall types
- Roll up side kits
- Shutters, manual or motorized thermostat operations
- Truss system available for hanging plants, waterlines & power
- Custom support bracing for mechanical equipment mounting
