COMBINATION DRILLING AND CUTTING MACHINE

NEW! KINETIC K5000 XMC COMBINATION DRILLING AND CUTTING MACHINE

OUR NEW KINETIC 5000 is a heavy duty machining operation with precision plasma or flame cutting. Parts to be finished in one set-up; Width 10' Length 40'

This giant of machine handles big jobs fast and efficiently:

- Drills 4" diameter holes in 8" thick plate
- Plasma torches with production cutting of 2" mild steel
- Plasma and oxygen bevel cutting up to 45 degrees

24 Automatic Tool Changer, Combination Plasma/Flame Bevel, Marking Systems, Flame Cutting, Multiple Torch Stations, with capabilities for:

- | | | |
|---------------|----------------|-------------------------|
| Drilling | Marking | Automatic Tool Changing |
| Milling | Plasma Cutting | |
| Tapping | Flame Cutting | |
| Counterboring | Bevel Cutting | |

MATERIAL FORMING & FABRICATION

TRUMPF PRESS BRAKES
(2) TRUBEND 5320 (360 TON)

TRUMPF PUNCH PRESS
TRUMPF TRUMATIC 260T

SHEAR
CINCINNATI 12' W

PLASMA
KOMATSU RASOR 6' X 14'

WELDERS
(30) MILLER MIG
(5) MILLER TIG

CRANES
(98) JIB CRANES
(5) MILWAUKEE BRIDGE (5 TON)
(2) MILWAUKEE BRIDGE (10 TON)
(1) MILWAUKEE BRIDGE (20 TON)
